

UTHPALA D. LIYANAGE

SENIOR SOFTWARE ENGINEER - JAVA

BSc (Hons.) Computer Science & Software Engineering

• ABOUT ME

I am a skilled, experienced Software Engineering Professional and having more than 4 years of software development experience in Desktop application development, Web - applications and Mobile application development with ability to perform and deliver in technically complex projects, meet deadlines and adaptable to ever-changing priorities with good communication with other team members. Loves to work in new solution oriented situations, think out of box and conduct Tech Talk Sessions to team mates who needs. Also doing out sourced projects since 2017 as a hobby.

• WORK EXPERIENCE (4 YEARS +)

● J2ee Software Engineer, Devzone.lk

December 2019 – Present

- Full Stack J2EE Desktop & Web Applications – Java

● J2ee Software Engineer – Associate, Devzone.lk

November 2018 – December 2019

- Full Stack J2EE developer on Web Applications & Desktop Applications

• PROJECTS – IN CAREER

● XENON PHARMACY POS (JAN 2021 – PRESENT)

XENON PHARMACY POS is a commercial type Point of Sales System product introduced by Devzone for the Pharmacies in Sri Lanka. The System consist with a Standalone Desktop Application using Java + Kotlin, MVVM with a spring boot server and a Web Analytical Tool Application with React, Php and Python. This system is capable to handle 50 Terminals at a time without overloading by load balancer.

Contribution:

- Developed and introduced new Application Loader to handle bulk of data from database to user interface with minimum latency using java threads by replacing existing one.
- Contributed on Code Reviews of other Associate developers and Interns.
- Contributed in Bug Ticket Resolving.
- Developed Automatic Bill Saving system at the Cashier panel of the application.
- Developed “Xenon Network Manager” which handles application’s network and terminal connections.
- Developed Billing Cart of the Application.
- Contributed in “Xenon Log & Error Manager”
- Contributed in “Xenon License Manager” to register application on windows registry.
- Contributed in development of Stock and Inventory Management Function.
- Contributed in Application UI development with JavaFX

• PROJECTS – TOP OUT SOURCED

I have developed more than 30 applications as out sourced projects for different Universities, personal and foreign clients and on Fiverr Since 2017. Here I have mentioned top recently completed projects. You can find more at Git Hub.

• HAPPY PET - Research Project (FEB 2022 – NOV 2022)

Happy Pet is an out sourced final year research project which is designed and developed by myself for 4 students to trace skin diseases of pets and suggest home remedies. Developed mobile application with Flutter and backend with Python with Firebase on 3 Trier Architecture. Used NLP, AI Chat bots, Image Recognition with SVM. On Github: github.com/MrLeanage/happy_pet_mobile

• Grievance Management System - Research Project (FEB 2021 – NOV 2021)

Grievance Management System (GMS) is a java based web application which was designed to Micro Cars (PVT) Ltd to manage their employee Grievances. Developed using Java, Web Sockets for java chatbot and MySQL with 3 Tier Architecture. On Github: github.com/MrLeanage/GMS

• Mansek Stock Market Desktop Application (NOV 2020 – APRIL 2021)

Mansek Stock Market Desktop Application is a KotlinFX project of a Chinese & Indian firm called Imaginato which I handled via Upwork. There I have developed the Main UI components in order to work with APIs, Concurrency and Coroutine threads concepts. Application is designed on MVVM Architecture. In there I have worked as a team with their other employees with Agile Practices and tools.

• EDUCATION

• Graduated (FEB 2021 – SEP 2021)

1st Class BSc (Hons.) in Computer Science and Software Engineering.
Convocation in 2022 March

From University of Bedfordshire, United Kingdom. (Top Up at SLIIT)

• Higher National Diploma (HND) (SEP 2016 – NOV 2019)

From Sri Lanka Institute of Information Technology (SLIIT)
